Maple syrup is a syrup usually made from the xylem sap of sugar maple, red maple, or black maple trees, although it can also be made from other maple species. In cold climates, these trees store starch in their trunks and roots before winter; the starch is then converted to sugar that rises in the sap in late winter and early spring. Maple trees are tapped by drilling holes into their trunks ...

Introduction. Population growth is a critical challenge facing sub-Saharan Africa (SSA) in the twenty-first century, as the region's population currently stands at 900 million people, and is projected to double by 2050 (Population Reference Bureau, 2012). The majority of people in SSA live in rural areas, which are experiencing rapid population growth and declining per capita farm sizes.
