LyX is a document processor that encourages an approach to writing based on the structure of your documents and not simply their appearance (). LyX combines the power and flexibility of TeX/LaTeX with the ease of use of a graphical interface. This results in world-class support for creation of mathematical content (via a fully integrated equation editor) and structured documents like academic ...

LaTeX is a 1990's interface on a 1980's technology (TeX), which was created to typeset complex mathematical formulas. There is an ocean of poorly written and incomplete LaTeX documentation online and in print.

Guide to LaTeX (4th Edition): Helmut Kopka, Patrick W

Font families []. There are hundreds - if not thousands - of typefaces, or font families. Common examples include Times, Courier, and Helvetica. These families can generally be grouped into three main categories: serif, sans serif, and monospaced. LaTeX commands generally refer to these with the shorthand rm, sf, and tt respectively.. By default, LaTeX uses Computer Modern, a family of typefaces ...

This might be in a file myfile.tex, as .tex is a common file extension for plain TeX files. By default, everything that follows a percent sign on a line is a comment, ignored by TeX. Running TeX on this file (for example, by typing tex myfile.tex in a command-line interpreter, or by calling it from a graphical user interface) will create an output file called myfile.dvi, representing the ...
