Modern Text Book of Zoology: Vertebrates by R.L. Kotpal

This book is intended as a general introduction to modern physics for science and engineering students. It is written at a level which presumes a prior full year's course in classical physics, and a knowledge of elementary differential and integral calculus. The material discussed here includes probability, relativity, quantum me-

principles of modern physics

This book is intended as a modern physics text for science majors and engineering students who have already completed an introductory calculus-based physics course. The contents of this text may be subdivided into two broad categories: an introduction to the theories of relativity, quantum and statistical
