The cell (from Latin cella, meaning "small room") is the basic structural, functional, and biological unit of all known living organisms. A cell is the smallest unit of life. Cells are often called the "building blocks of life". The study of cells is called cell biology. Cells consist of cytoplasm enclosed within a membrane, which contains many biomolecules such as proteins and nucleic acids.

Cell (biology) - Wikipedia

General Overviews. Dialogue is a relatively new field and as such it has not yet yielded handbooks or monographs that provide comprehensive introductions to the area.
