IEEE International Power Electronics and Application Conference and Exposition (PEAC) is an international conference for presentation and discussion of the state-of-the-art in power electronics, energy conversion and its applications.

The 2nd IEEE International Power Electronics and

Another very important feature of the circuit, is the possibility to preset the maximum output current which can be drawn from the p.s.u., effectively converting it from a constant voltage source to a constant current one.

Energy saving and environment are some of the most important challenges in focus over the next decades. Electric and hybrid vehicles, clean electric energy and reliable monitoring systems all rely on power electronics.
