CS-102 Logical Organization of Computers . Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.

Software engineering
Software engineering is the application of engineering to the development of software. It involves the design, development, testing, and maintenance of software systems. The field is interdisciplinary, drawing on computer science, electrical engineering, and systems engineering. Software engineers are responsible for creating the code that runs on computers and other devices. They also work on the design and architecture of software systems, ensuring that they are efficient, reliable, and easy to use. Software engineering is a rapidly growing field, with new technologies and applications being developed all the time.

O primeiro trabalho de linguagem de programação foi criado por Ada Lovelace, grande amiga de Charles Babbage. [8] O projeto da primeira calculadora mecânica programável foi idealizado por Charles Babbage [9] que, após gastar fortunas e um longo tempo, não conseguiu concretizar o projeto. [10] A linguagem de programação ADA foi batizada em homenagem a esta primeira programadora.
